

## General

There are two tasks to proceed

## Tasks 1

We are asking to create responsive HTML page according to the design below.

1. Build the responsive page, use HTML5 and CSS3.
2. Use bootstrap
3. Images, title and description should be taken from API:

<http://bekey.io/testwork/test.ashx>

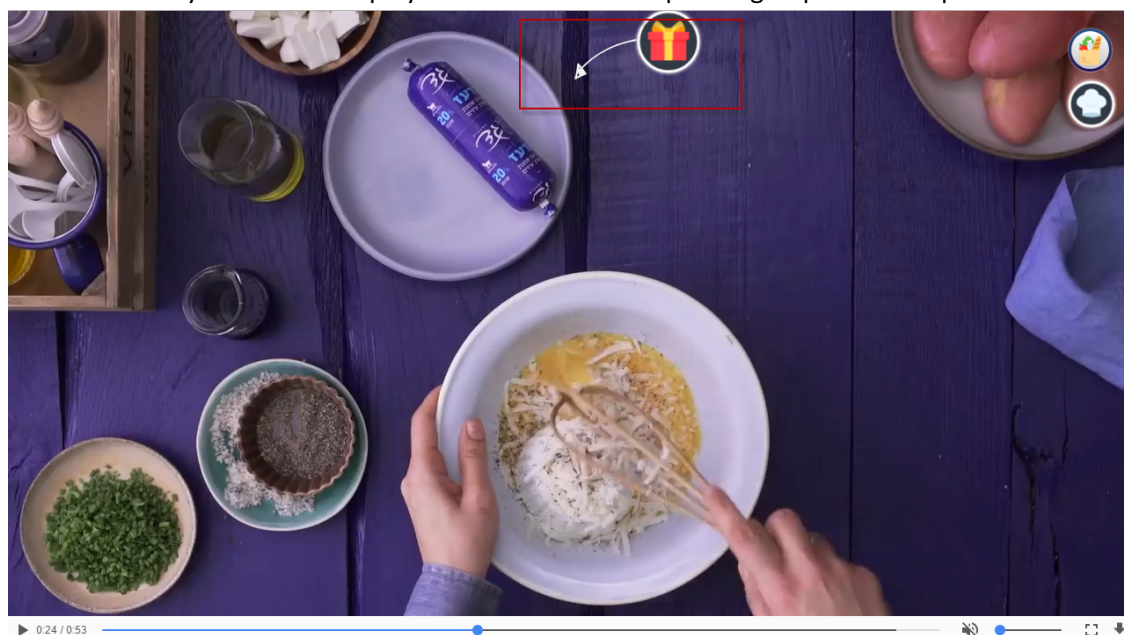

## Tasks 2

Please create simple HTML page and display the video from the following source:

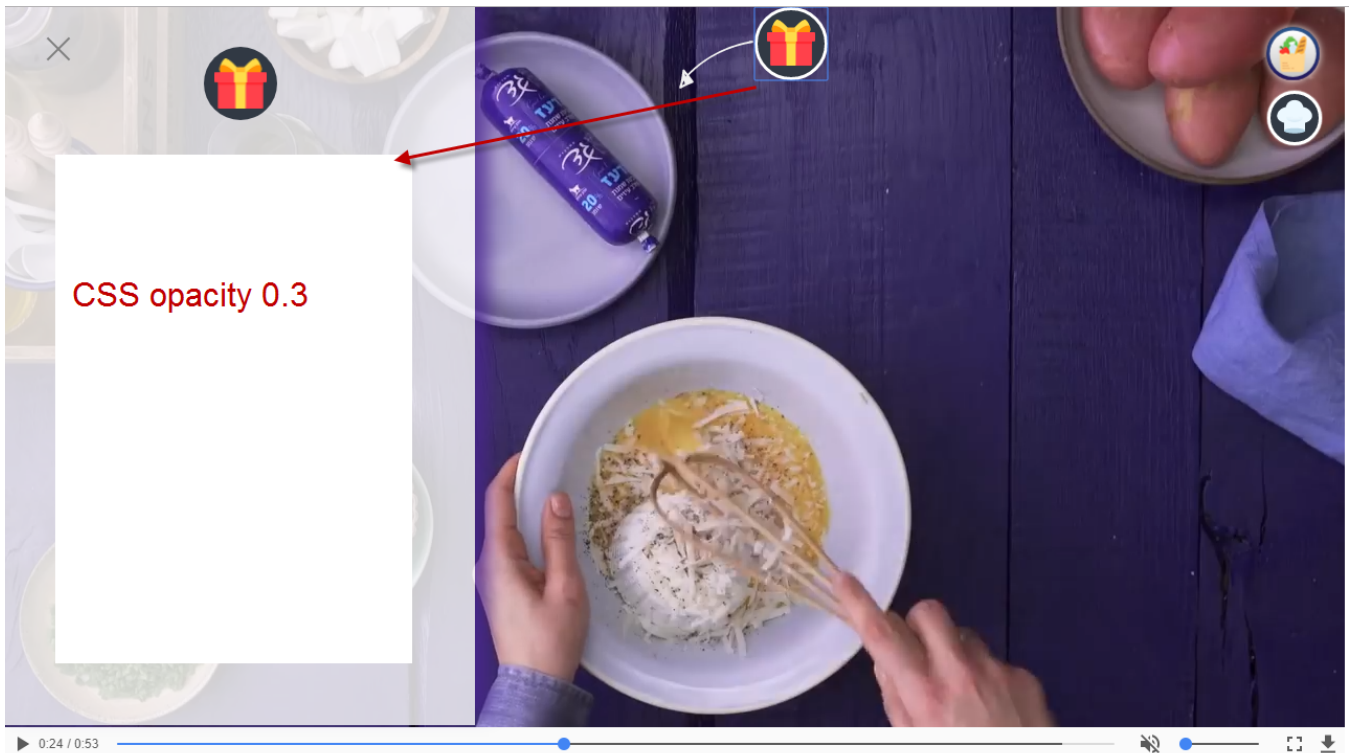

<http://crazysob.bekey.io/osemrecipe/videodemo/video/onion.mp4>

At 24<sup>th</sup> second you need to display the icon with arrow pointing to product on plate as shown below:

Icon should disappear after 3 seconds once the product is not displayed in video.

Once icon clicked you should open the popup on the left part of the screen as shown below:

When the popup opens, the video should stop.

Good luck!
